

2008 STiS Competition WA State Winners

The 2008 Spatial Technology in Schools competition has now closed. The standards of all the projects submitted this year was extremely high, with only 1 or 2 points separating the winners:

WA Winner Secondary School – Thornlie Christian College for their project, *"The Health of the Jarrah Ecosystem at Manjedal"*.

WA Winner Primary School – Nyindamurra Family School NIS Project.

These two entries were sent to Queensland for the National Judging in November.

Second Place Secondary School – Shenton College, *"GIS Crime Website"*.

Second Place Primary School – Darlington Primary School Years 5/6, *"Green Land Use at Darlington School"*

Most Community Minded (value to community and ongoing use within the local community) – JCSA Albany, *"Emu Beach Erosion Project"*

Most Original Idea – Shenton College, *"Family Friendly Suburbs"*

Best New Entrant Secondary School – Lake Joondalup Baptist College, *"Craigie Open Space Study"*

Best New Entrant Primary School – Darlington Primary School, *"Green Use at Darlington School"*

Best Presentation – John Calvin Christian College, *"Historical Sites in Armadale"*

National Winners

Nyindamurra Family School won first prize in the Primary School section at the National level.

Thornlie Christian College won first prize in the Secondary School category at National level.

Many thanks to everyone who took part in the competition and obviously put in a HUGE amount of work. Well done to all the winners!
